About Safepal

Secure Crypto Assets, Anywhere

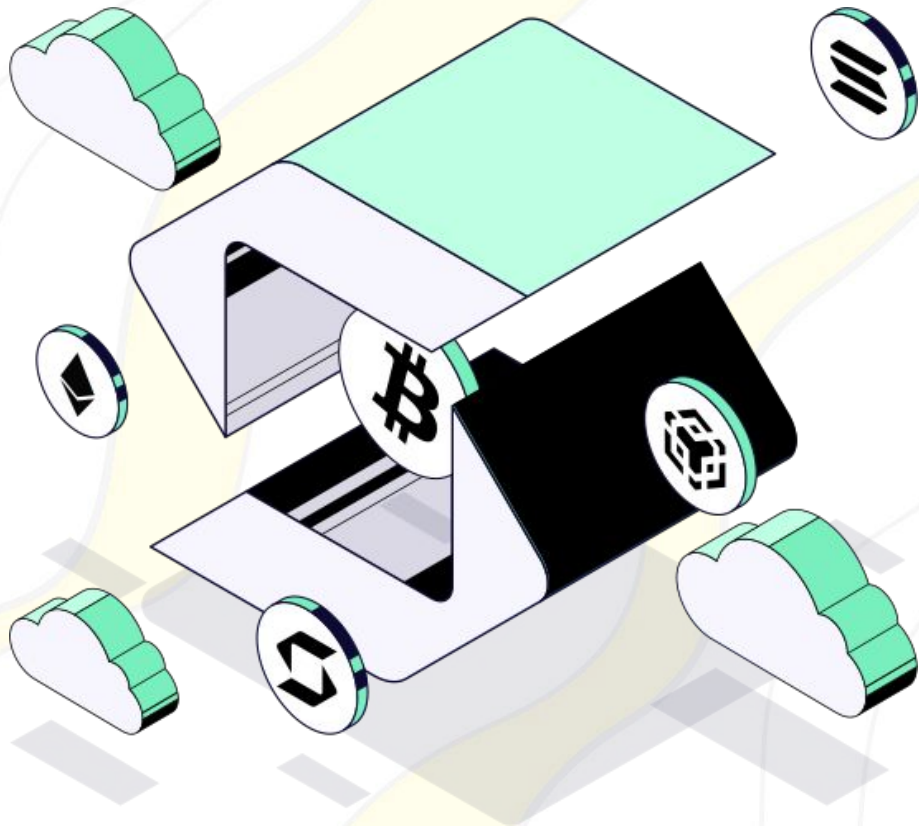

SafePal is an easy-to-use, trustworthy platform for managing and developing crypto assets. Binance has made its first investment in and support for a hardware wallet with SafePal.

Why SafePal

Used More Than 3 Million People

SafePal is now used by more than 3 million users in more than 196 countries. This is a unique hardware wallet to be used for managing digital assets securely.

Users can then easily secure, manage, exchange, trade and develop cryptocurrencies without compromising asset security.

Advantages of SafePal

SafePal For Whom?

SafePal is built to secure crypto assets anywhere. This device is specifically dedicated to crypto investors who want to secure their digital assets from the risk of theft, cybercrime or crypto jacking.

SafePal Specifications:

- Operation Temperature: -4° to 158° F (-20° to 70° C)
- Power: Charged with USB Cable
- Camera: For high-speed scanning QRcode
- Screen: 1.3" IPS
- Connectivity: none
- Product Upgrade: support firmware upgrade
- Battery: 400mAh (based on 20 days usage, and daily use of 10 minutes/day)

Mini Size Device

Practical and Safe

SafePal dimensions are no bigger than your credit card. But don't be fooled by its mini size, because SafePal has greater security potential.

Mini Size Device

Manage Unlimited Tokens

100% Offline Sign Mechanism

Easy to carry

SafePal is very easy to carry anywhere you want. It has compact dimensions and light weight, making the device easy to keep in a trouser pocket. You can manage assets whenever you want.

Latest Security System

SafePal is equipped with the latest security systems, ranging from multi-layered security sensors, as well as a self-destruct mechanism to prevent data loss when the device is stolen.

100% Offline

SafePal is classified as a cold storage wallet. This means that the wallet does not require an NFC connection, WiFi, Bluetooth or USB Connection in order to work properly.

Three Easy Ways to Activate Safepal

You only need the Safepal Wallet application which can be downloaded via the PlayStore and App Store, then create a new wallet using the mnemonic phrase, and finally connect Safepal Wallet with SafePal hardware using the QR Code mechanism.

Secure Mnemonic Phrase with SafePal Cypher

SafePal's security system works using mnemonic phrases, aka word lists that store all the information you need to manage crypto assets. Mnemonic Phrase can be protected by utilizing SafePal Cypher to ensure you keep your word lists safe.

Asset theft can be prevented

Use Safepal. Your Crypto Assets will be more secure.
